CONSTRUCTION SAFETY PARTNER PROGRAM

! WHAT KEEPS YOU UP AT NIGHT?

Struggling with OSHA Compliance?

Keeping up with OSHA regulations, contractor safety, and job site hazards can be overwhelming.

Inconsistent Safety Across Job Sites?

With multiple contractors on-site, inconsistent safety practices, lack of oversight, and communication gaps can increase risk exposure.

Need Cost-Effective Safety Support?

Hiring full-time safety professionals may not fit your budget, but the stakes for safety are too high to ignore.

The C-SPP allows you to focus on your business with confidence, knowing that your compliance and safety efforts are being managed professionally.

C-SPP LEVELS

BLUEPRINT PARTNER

- One-day safety gap assessment with actionable recommendations.
- Weekly toolbox talks and compliance guidance.
- Best for companies establishing safety programs.

FRAMEWORK PARTNER

- 200 field support hours for assessments, policy development, and compliance support.
- SSSP development and contractor prequalification management.
- Ideal for companies enhancing safety programs.

PILLAR PARTNER

- 400 field support hours for safety program oversight and risk management.
- Weekly site visits.
- Advanced policy development.
- Compliance tracking and contractor oversight.
- Best for companies needing more visibility in the field.

KEYSTONE PARTNER

- 800 field support hours for full safety integration.
- Leadership engagement, scenario-based drills, and real-time data tracking.
- Continuous improvement and compliance strategy.
- Ideal for companies embedding safety as a core function.
